

## Special Issue

# Data-Driven Intelligent Technologies for Smart Cities

### Message from the Guest Editors

Papers within this Special Issue should focus on challenges, limitations, opportunities and potential impact for smart cities from practical, experimental or theoretical perspectives. The topic Papers describing mitigation strategies concerning challenges and limitations related to smart cities are also for submission. The topics of the Special Issue include, but are not limited to:

- smart city
- data mining
- machine learning
- intelligent system
- data-driven decision
- knowledge discovery

Welcome to contribute.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
