Digital Underwater Acoustic Communications

Message from the Guest Editor

The topics of interest include, but are not limited to the following:

- Underwater modulation/demodulation communication techniques
- Underwater long/short range communication techniques
- Underwater multiple access communications
- Underwater covert communications
- Interference issues and solutions of underwater communications
- Underwater sophisticate receiver structures for reliable communications
- Applications to underwater communications: underwater IoT, UUV, AUV, etc.

Welcome to contribute.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
