

## Special Issue

# Video Coding, Processing, and Delivery for Future Applications

### Message from the Guest Editors

To cope with an everlasting demand for video transmission, new video standards and video compression algorithms are essential. The latter can exploit new computing paradigms such as cloud computing and mobile edge computing for faster and more efficient video delivery and video creation, especially for M2M video applications. The aim of this Special Issue is to collect the experiences of leading scientists of the field, but also to be an assessment tool for people who are new to the world of video coding and processing. This Special Issue intends to cover the following topics, but is not limited to them:

- Video coding for new generation video standards (e.g., VVC, AV1);
- Next-generation video codecs (e.g., VCM);
- Video transcoding;
- Machine learning in video coding;
- Complexity reduction techniques for video coding standards;
- Mobile edge computing for media;
- Cloud computing for media;
- Video-related IoT;
- Hardware implementation for media;
- Parallel media processing.

### Guest Editors

Dr. Maria Koziri

Dr. Panagiotis Oikonomou

Prof. Dr. Ioannis Anagnostopoulos

### Deadline for manuscript submissions

closed (31 January 2023)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
