

Special Issue

Converging Platform Technologies: Collaborative Innovations and Future Directions

Message from the Guest Editors

This Special Issue is dedicated to exploring the convergence of platform technologies across diverse disciplines and industries. It seeks to highlight innovations that advance connectivity, functionality, and integration, bridging the gap between theoretical research and practical applications. We invite authors to submit papers that address any aspect of platform technology, including, but not limited to, computing architectures, smart systems, network solutions, and security frameworks. Contributions that demonstrate novel approaches and offer insights into future challenges and opportunities in platform technologies are particularly welcome. By integrating both conference proceedings and external submissions, this Special Issue will enrich the existing dialogue within the technology community. It will serve to expand on the discussions initiated at the 2024 International Conference on Platform Technology and Service (PlatCon-24), providing a broader, more comprehensive view that bridges current research with emerging trends.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
