Innovative Systems and Solution in Healthcare Based on AI, Blockchain and IoT

Message from the Guest Editors

The integration of blockchain technology in healthcare offers transformative potential, addressing critical issues related to security, transparency, and efficiency in managing medical data and operations. Existing solutions have already demonstrated blockchain's capability to enhance data security, improve interoperability, and streamline several processes. This has made such a technology more and more pervasive in medical practice. Topics of interest include, but are not limited to, the following:

- Management of health IoT systems;
- Decentralized healthcare systems and telemedicine solutions;
- Secure and interoperable electronic health records (EHRs);
- Patient data privacy and consent management;
- Clinical trials and research data integrity;
- Supply chain management for pharmaceuticals and medical devices;
- Smart contracts for insurance claims and billing processes.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
