

Special Issue

Blockchain-Based Cryptography, Privacy- Preserving and Cybersecurity Systems

Message from the Guest Editors

In this Special Issue, we aim to focus on the following research areas: blockchain-based cryptography, privacy-preserving, and cybersecurity systems. The Special Issue aims to focus on data confidentiality protection, data access control, and private-preserving systems, with contradiction and unity between security, scalability, and efficiency. Additionally, we invite authors to submit their abstracts, modeling and exploring methods in terms of scalability authorization control over ciphertext aggregating, access, write and search, etc. The following items in particular will be considered: ciphertext confidentiality, forward security and backward security on dynamic privilege management, and resistance of collusion. **Keywords:** blockchain; privacy-preserving system; data confidentiality protection; data access control; dynamic privilege management; ciphertext search; cybersecurity **Technical Program Committee Member:** Name: Dr. Jiaoli Shi
Email: shijiaoli@whu.edu.cn
Affiliation: School of Computer and Big Data Science, Jiujiang University, Jiujiang 332005, China

Guest Editors

Prof. Dr. Daesung Lee

Department of Computer Engineering, Catholic University of Pusan,
Busan 46252, Republic of Korea

Prof. Dr. Minsu Kim

Department of Information Security Engineering, Joongbu University,
Goyang City 10279, Republic of Korea

Deadline for manuscript submissions

closed (15 June 2025)

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
