

Special Issue

Advances in Vehicular Electronics and Communications Systems

Message from the Guest Editors

This Special Issue is intended to foster the dissemination of state-of-the-art research in the area of vehicular electronics and communications systems. Topics of interest include, but are not limited to, the following areas:

- Advanced data sensing electronics using communications systems for vehicular technologies;
- Advanced security electronics and communications systems in vehicle-to-everything applications;
- Advanced driver assistance electronics and communications systems in vehicle-to-everything applications;
- Autonomous vehicle ecosystems using electronics and communications technologies;
- Intelligent transport systems using electronics and communications technologies;
- AI-enabled issues using electronics and communications systems for vehicular technologies;
- Precise positioning technologies and applications using electronics and communications technologies;
- Performance evaluation of vehicular electronics and communications systems;
- Economic and management technologies using electronics and communications technologies;
- Intelligent social networks in vehicular electronics and communications systems.

Guest Editors

Dr. Ming-Fong Tsai

Prof. Dr. Lien-Wu Chen

Prof. Dr. Tien-Wen Sung

Deadline for manuscript submissions

closed (15 November 2023)

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
