

## Special Issue

# Visual Servoing in Robotics

### Message from the Guest Editor

This Special Issue aims to cover the most recent advances in visual servoing including industrial and service robotics. Novel theoretical approaches or practical applications of all aspects of visual servoing systems are welcomed. Reviews and surveys of the state-of-the-art are also welcomed. Topics of interest to this Special Issue include, but are not limited to, the following topics:

- Path-planning in visual servoing
- Navigation and localization using visual servoing
- Dynamic and direct visual control of robotic systems
- Robust and optimal control of robots
- Intelligent control
- Deep learning and machine learning in visual servoing
- Intelligent transportation using visual servoing
- Non-linear visual control of robotics systems
- Visual servoing in manipulation tasks
- Visual servoing in field robotics
- Space robotics and visual servoing
- Real-time embedded visual control systems
- Humanoid robots and visual servoing

Welcome to contribute!

---

### Guest Editor

Prof. Dr. Jorge Pomares

Department of Physics, Systems Engineering and Signal Theory,  
University of Alicante, 03690 Alicante, Spain

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
