

Special Issue

Active Mobility: Innovations, Technologies, and Applications

Message from the Guest Editors

This Special Issue will shed light on the transformative potential of active mobility and electronic technologies, providing insights into the latest developments, challenges, and opportunities in this field. We encourage authors to explore the theoretical frameworks, practical analyses, novel use cases, and innovative applications of active mobility and electronic systems. We believe that this Special Issue will be a valuable platform for knowledge exchange and dissemination of cutting-edge research on active mobility and the future of last mile logistics. The suggested topics of interest, although not exhaustive, include:

- Smart mobility solutions for active transportation
- Internet of Things (IoT) in active mobility systems
- Data analytics and machine learning for active mobility
- Wireless sensor networks for active mobility monitoring
- Active mobility and sustainable urban planning
- Active mobility and public health: impacts and benefits
- Active mobility and energy efficiency: integration and optimization

This Special issue has published 3 publications!

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
