

Special Issue

Design, Development and Testing of Wearable Devices

Message from the Guest Editors

Due to the rapid development of wearable technology and the Internet of Things in recent years, wearable devices have been the focus of a large number of investigations in various application fields. Many innovative works are introduced via combining several cutting-edge techniques, such as artificial intelligence, big data, smart wearables, fashion electronics, and the IoT. Wearable devices appear prominently in consumer electronics with the applications of healthcare and activity trackers. Technologies related to smart wearables still have the potential for research and development and attract a significant amount of attention in many fields of engineering. This Special Issue highlights innovative studies and practical applications and addresses new technologies related to smart wearables, electronic devices with micro-controllers that have the capabilities of detection, analyses, and transmitting information.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
