Advances in Data Mining: Methods and Applications

Message from the Guest Editors

Data mining has long been a cornerstone technique for extracting potentially useful patterns, associations, and knowledge from vast and complex datasets, playing an integral part in knowledge discovery. In an era characterized by explosive growth in data volume, velocity, and variety, from structured databases to unstructured text, images, sensor streams, and time-series data, advanced data mining methods remain essential for turning raw data into actionable insights across numerous domains. This Special Issue aims to showcase the latest advances in data mining algorithms, methodologies, and real-world applications. We invite researchers to submit high-quality original research articles, as well as comprehensive review papers, that address novel developments, theoretical improvements, or practical implementations in this dynamic field.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
