

## Special Issue

# Key Technologies of Satellite Communications and Networks

### Message from the Guest Editors

The rapid development of satellite communication technologies has also led to significant advancements in the fields of navigation, Earth observation, and space exploration. In this context, we are launching a call for papers to bring together experts, researchers, and stakeholders from academia and industry to share their findings, ideas, and insights on the latest trends, challenges, and potential applications of satellite communication technologies. This call for papers aims to cover a broad range of topics related to satellite communication technologies, including, but not limited to:

- Design and optimization of satellite communication systems.
- Advanced modulation and coding techniques for satellite communications.
- Antenna design innovations for satellite communication systems.
- Advanced architectures and technologies for the ground station.
- Security aspects and challenges in satellite communication.
- Applications of satellite communication technologies in IoT and 5G networks.
- Satellite communication in disaster and emergency management.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q1 (Electrical and  
Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.4 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the second half of 2024).
