

## Special Issue

# Wireless Power Transfer Modelling Methods and Related Applications

### Message from the Guest Editors

This Special Issue aims to present and disseminate the most recent advances related to the Modelling theories, methods and platforms of WPT systems. Topics of interest for publication include, but are not limited to:

- Equivalent circuit models of WPT;
- Electromagnetic field Modelling and simulations for inductive or magnetic resonance systems;
- Coil design and optimization models;
- Channel Modelling for microwave propagation of remote WPT systems;
- mmWave, Terahertz and reconfigurable intelligent surface (RIS) propagation Modelling for WPT;
- Optimization methods based on the WPT models;
- AI-based Modelling and related control methods;
- Communication Models of simultaneously wireless information and power transfer systems;
- Theoretical models of wireless powered localization network;
- New models for WPT IC design;
- Simulation software for WPT systems.

Look forward to your contributions.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
