Special Issue

Multimodal Learning and Transfer Learning

Message from the Guest Editors

Multimodal learning and transfer learning, as popular research directions in the field of artificial intelligence, are leading the way in the development of artificial intelligence technology. This Special Issue brings together the latest research results and trends in multimodal learning and transfer learning and aims to provide a platform for academics and the industry to discuss these two fields in depth, to promote communication and cooperation in the fields of multimodal learning and transfer learning, and to facilitate the implementation of related technologies and innovations in practical applications. We invite researchers from academia and industry to contribute their original research articles, reviews, and case studies. Topics of study can include, but are not limited to, the following:

- Multimodal learning models and algorithms;
- Cross-modal information fusion and representation learning;
- Theory and methods of migratory learning;
- Cross-domain transfer learning;
- Cross-language multimodal learning;
- Applications of multimodal learning and transfer learning.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero
Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
