

## Special Issue

# High Accuracy Detection of Mobile Malware Using Machine Learning

### Message from the Guest Editor

This Special Issue calls for contributions that focus on novel, efficient and high-accuracy detection of malware on the mobile platform using machine learning. The Special Issue invites authors to submit high-quality research papers reporting the latest results and innovative approaches featuring robust, scalable, obfuscation-resilient, attack-resistant machine learning techniques. The scope of the topics for this Special Issue includes (but is not limited to) the following:

- Systematic review of the latest machine-learning-based mobile malware research
- Novel machine learning techniques applied to mobile malware
- Deep-learning-based detection of mobile malware
- Novel supervised and unsupervised learning techniques
- Classifier fusion and ensemble-learning-based approaches
- Novel system architectures for mobile malware detection
- Network-based machine-learning-driven detection systems
- Edge/fog computing machine-learning-based detection systems
- Cloud-based/cloud-assisted large-scale detection systems
- Adversarial machine learning techniques
- Mitigating long-term performance decline

### Guest Editor

Dr. Suleiman Yerima

Cyber Technology Institute, School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

### Deadline for manuscript submissions

closed (31 October 2022)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
