

Special Issue

Advances in IoT Security

Message from the Guest Editors

The objective of this special issue is to explore the latest advancements, challenges, and opportunities in IoT security and present innovative solutions to address the evolving cybersecurity landscape. Potential topics of interest for this special issue include, but are not limited to:

- Threat modeling and risk assessment for IoT systems
- Cryptographic techniques and protocols for securing IoT communications
- Privacy protection and data integrity in IoT environments
- Intrusion detection and prevention mechanisms for IoT networks
- Trust and identity management in IoT ecosystems
- Security architectures and frameworks for IoT deployments
- Secure firmware and software update mechanisms for IoT devices
- Machine learning and artificial intelligence for IoT security analytics
- Blockchain-based approaches for securing IoT systems
- Secure authentication and access control in IoT environments
- Physical layer security techniques for IoT networks
- Standards and regulations for ensuring IoT security and privacy

Guest Editors

Dr. Abebe Diro

College of Business and Law, RMIT University, Melbourne, VIC 3001, Australia

Dr. Mohiuddin Ahmed

Computing and Security, School of Science, Edith Cowan University, Joondalup, WA 6027, Australia

Deadline for manuscript submissions

closed (31 December 2024)

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
