

Special Issue

Advanced Technologies in Antennas and Their Applications

Message from the Guest Editors

This Special Issue mainly focuses on advanced antenna technologies and their wide range of applications, aiming to illustrate the working principle of these antennas and investigate the latest advanced technologies for the realization of high performance, i.e., wide bandwidth, low profile, high gain, wide beamwidth, 3D printing, and so on. Topics of interest include, but are not limited to: 5G and B5G antennas for terminal as well as base stations; filtering antennas; 3D printing antennas; array/MIMO antennas; artistic and hidden antennas; decoupling for multi-port antennas; meta-material/ metasurface; phased array antennas; and RFID Base Station Antennas and Systems. Welcome to contribute:

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
