

## Special Issue

# Antennas and Propagation Aspects for Emerging Wireless Communication Technologies

### Message from the Guest Editors

The main aim of this Special Issue is to seek high-quality submissions that highlight emerging applications and address recent breakthroughs in the design and implementation of advanced antenna components and novel propagation models in order to support high data rate transmission in the context of 5G and satellite networks and also the accurate evaluation of the new architectures. Topics of interest include, but are not limited to the following:

- Multi-beam antenna technologies for 5G wireless communications
- Millimeter wave (mmWave) and THz antennas for 5G wireless communications
- Propagation model at mmWave and THz bands
- Compact antenna arrays for massive MIMO systems
- mmWave and large-scale MIMO channel model
- Antennas for implantable systems and IoT applications
- Advanced antennas and transceivers for full-duplex communication
- Distributed antenna systems for 5G multi-user networks
- mmWave and THz cooperative relays for coverage extension

Please click [here](#) to find more detailed information.  
Welcome to contribute!

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
