

Special Issue

Applications of Software Defined Networking

Message from the Guest Editor

The main objective of this Special Issue is to focus on the recent applications of SDN in the various domains of wired and wireless networks. Potential topics include, but are not limited to, the following:

- SDN applications in network monitoring
- SDN applications in security services
- SDN applications in routing
- SDN applications in distributed application control
- SDN applications in resource management
- SDN applications in cloud networking
- SDN applications in the Internet of Things
- SDN applications in wireless sensor networks

Welcome to contribute.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.
