

Special Issue

Advanced RFID Technology and Applications

Message from the Guest Editors

RFID in general, and NFC in particular, are mature technologies that have found application in almost every sector: transport, supply chain, agricultural activity, automotive, banking, health, etc., and have acted as precursors and pivotal elements of the IoT and its related recent paradigms of Industry 4.0 and Smart Cities. The improvement of the existing applications and the development of these new paradigms entail technological challenges in relation to RFID and NFC that include energy harvesting, compatibility, localization, and security, to name a few. Thus, in this Special Issue, we are interested in the most recent research in the definition of novel applications and new proposals for the solution of current and envisaged problems in relation to RFID and NFC technologies.

The topics of interest include but are not limited to the following:

- RFID
- NFC
- IoT
- Industry 4.0
- Smart cities
- Wireless sensors
- EPC

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
