

Special Issue

Recent Advances in Biometrics and its Applications

Message from the Guest Editors

Biometric recognition has become a burgeoning research area due to the industrial and government needs for security and privacy concerns. It has also become a center of focus for many authentication and identification applications in the civil and forensic fields. This Special Issue aims to solicit original research papers, as well as review articles focusing on recent advances in biometrics and its applications. We are inviting original research work covering novel theories, innovative methods, and meaningful applications that can potentially lead to significant advances in biometrics. Additionally, the authors of the papers, presented at the 3rd International Workshop on "Recent Advances in Biometrics and its Applications" that we are organizing within the framework of the 2019 42nd International Conference on Telecommunications and Signal Processing (TSP), are invited to submit their extended versions to this Special Issue of the Journal *Electronics* after the conference. 20% discount will be applied. Submitted papers should be extended to the size of regular research or review articles, with at least a 50% extension of new results. There are no page limitations.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
