

## Special Issue

# Blockchain Technologies and Applications for IoT

### Message from the Guest Editors

Blockchain-based IoT will be nothing less than a paradigm shift and has potential to help address some of the IoT challenges. This Special Issue invites researchers to contribute with original contributions and reviews that address shortcomings and constraints of both IoT and blockchain technologies, address challenges in recent trends in IoT blockchain-based applications, and provide innovative solutions on the convergence of blockchain and IoT.

- Blockchain technology for IoT
- New consensus protocols for IoT Applications
- Frameworks and software platforms for blockchains in IoT
- Scalability, interoperability and blockchain for IoT applications
- New emerging architectures for security and privacy in IoT applications
- Evaluation and experimental analysis of blockchain IoT applications
- Machine Learning for blockchain-based IoT applications
- Artificial intelligence and blockchain for IoT applications
- Blockchain-as-a-service
- IoT applications based on blockchain technology
- Blockchain identity management and security
- Blockchain 3.0 and Blockchain 4.0

### Guest Editors

Dr. Youakim Badr

Big Data Lab, Engineering Division, The Pennsylvania State University,  
Malvern, PA 19355, USA

Prof. Dr. Salim Hariri

Autonomic Computing Laboratory, University of Arizona, Tucson, AZ,  
85719, USA

### Deadline for manuscript submissions

closed (15 December 2020)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
