

Special Issue

Advances in Optimization and Control of Electronic Devices for Renewable and Clean Energy Systems and Applications

Message from the Guest Editors

The renewable energy industry and market have developed rapidly in the past few years, and it is essential to regularly review current research, developments, and innovations in order to be able to map future challenges. Methods and optimizations to improve the integration of clean and renewable resources are welcomed, such as system modeling and design considerations, intelligent control design, and control strategies, utilizing high-performance electronic devices. The topics of interest include but not limited to:

- Wave energy conversion
- Tidal energy conversion
- Wind energy conversion
- Solar energy conversion
- Offshore energy applications
- Fusion energy control
- Fault-tolerant control
- Intelligent control design and control strategies
- Mono-objective and multi-objective optimization
- Advanced control of power electronic devices

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
