Cyber-Security in Smart Cities: Latest Advances and Prospects

Message from the Guest Editors

We would particularly like to invite submissions of the latest advances and prospects of cyber-security in smart cities that have received little or no attention to date. We would also like to encourage submissions that use immersive technology such as augmented or virtual reality, quantum computing, post-quantum cryptosystem, zero-trust architecture, artificial intelligence, etc. Topics in this Special Issue of *Smart Cities* include, but are not limited to, the following:

- Smart city;
- 5G/6G;
- Internet of Things/Vehicle;
- Medical information;
- Transportation;
- Wireless communication;
- Blockchain technology;
- Governance;
- Electronic grid;
- Security and privacy;
- Security mechanisms.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
