

Special Issue

Prevention, Detection, Reaction and Mitigation of Physical and Cyber Threats

Message from the Guest Editors

This Special Issue is to present surveys, research work, and industrial experiences on the techniques that are developed to prevent, detect, react, and mitigate physical, cyberthreats, and their combination. Topics can be:

- Secure design of complex hardware and software systems;
- Model checking for security properties;
- Smart vulnerability scanning and threat identification;
- Advanced Intrusion and attack detection techniques;
- Smart testing techniques for cybersecurity;
- Advanced monitoring techniques for cybersecurity;
- Root cause analysis and reaction strategies;
- AI/ML-based SIEM;
- Correlation between physical and cyberthreats;
- Automatic mitigation and reaction;
- Resilience techniques;
- Cost and impact of countermeasures;
- Continuous risk assessment and risk management;
- Cybersecurity in agile development process;
- DevSecOps;
- ML/AI-based cybersecurity;
- Blockchain-based cybersecurity;
- Prevention and protection in distributed systems and networks;
- Innovative cybersecurity methods for cloud, edge, fog, IoT, CPS, 4G/5G, and SDN/NFV environments.

Guest Editors

Prof. Dr. Ana Rosa Cavalli

Department of Mobile Networks and Services, Institute Mines-Telecom/Telecom Sud Paris, CEDEX, 91011 Evry, France

Dr. Wissam Mallouli

Montimage, 75013 Paris, France

Deadline for manuscript submissions

closed (20 December 2021)

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
