Deep Learning Cognitive Computing Techniques and Their Application in Cybersecurity and Forensics

Message from the Guest Editors

This Special Issue invites a broad range of topics across emerging deep learning cognitive computing techniques applications in cybersecurity and forensics, some specific topics include, but are not limited to:

- Application of deep learning cognitive computing techniques in cybersecurity or forensics;
- Deep learning for cyber forensics;
- Deep learning enabled cybersecurity or forensics engine;
- Novel machine learning approaches to cybersecurity or forensics;
- Deep learning methods for cybersecurity or forensics;
- Deep learning methods for database security or forensics.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
