

Special Issue

Advances in Human-Centered Digital Systems and Services

Message from the Guest Editors

This Special Issue welcomes scientific contributions from all the domains of Quality of Experience (QoE), for any digital system or service. Whether it is the mapping between the key performance indicators of an emerging display system and the perceived visual quality, the performance evaluation of a novel human–computer interface, the investigation of human factors and inter-user effects of an upcoming metaverse solution, the impact assessment of cognitive bias for a dedicated device, or the cost-efficient yet human-centered resource optimization of a conventional digital service, all QoE-related research efforts may be published in this Special Issue. Beyond original, high-quality technical papers, we invite researchers to submit their reviews, tutorials, theoretical frameworks, and proposals. We look forward to receiving your contributions. **Technical Committee Member:** Aniko Simon, Sigma Technology

Guest Editors

Dr. Peter A. Kara

Department of Networked Systems and Services, Faculty of Electrical Engineering and Informatics, Budapest University of Technology and Economics, 1111 Budapest, Hungary

Dr. Federica Battisti

Department of Information Engineering, University of Padova, 35122 Padova, Italy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
