

## Special Issue

# Advanced Materials for Intelligent Electronics

### Message from the Guest Editor

The topics of interest encompass a wide range and are not limited to the following:

- Novel synthesis and fabrication techniques of functional materials.
- Characterization and evaluation of chemical and physical properties of materials.
- Applications of the materials in energy-related technologies (e.g., solar cells, batteries).
- The advanced materials for environmental remediation and pollution control.
- The advanced materials for sensing and detection applications.
- Biomedical applications of nanocomposite materials.
- The materials for advanced electronic and optoelectronic devices.
- Multifunctional nanocomposites for diverse applications.
- Theoretical modeling and simulation studies of advanced materials.
- Advances in nanocomposite coatings and surface modifications.
- The advanced materials for additive manufacturing and 3D printing.
- Challenges and future perspectives in the field of advanced materials for intelligent electronics.

These topics serve as a general guideline, and contributions related to other relevant aspects of advanced materials for intelligent electronics are also welcome.

### Guest Editor

Dr. Hyojung Kim

Department of Semiconductor Systems Engineering, Sejong University,  
Gwangjin-gu, Seoul 05006, Republic of Korea

### Deadline for manuscript submissions

closed (15 October 2024)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
