

## Special Issue

# Applications of Electromagnetic Waves

### Message from the Guest Editor

The objective of this Special Issue is to provide an overview of the current research on “Applications of Electromagnetic Waves”, highlighting the latest developments and innovations in modern applications, including, but not limited to, the following:

communication systems, wireless power transfer, sensors, imaging, non-destructive testing, circuits, radar, antennas, micro-electromechanical systems, power generation and transmission, RFID, and so on.

We will also try to identify new challenges and opportunities for new applications. Keywords

- Imaging with electromagnetic waves
- Sensing with electromagnetic waves
- Electromagnetic applications in biomedicine
- Electromagnetic applications in nanotechnology
- Electromagnetic measurements
- Electromagnetic modeling of devices and circuits
- Inverse scattering and inverse electromagnetic problems
- Electromagnetic radiators and antennas
- Wireless power transfer based on electromagnetic waves
- Radio-frequency identification (RFID)

Welcome to contribute!

---

### Guest Editor

Dr. Reza K. Amineh

Department of Electrical and Computer Engineering, New York Institute of Technology, New York, NY 10023, USA

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Signal Processing)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
