

Special Issue

Electronic Devices on Intelligent IoT Applications

Message from the Guest Editors

Smart devices and external control information are utilized with the hope of attracting companies that manufacture high-value-added aerospace, automotive, IT mold, textile, optoelectronic, watch, medical, defense-related, automation, energy, and semiconductor-related parts and components to drive the country's economy. The main goal of this Special Issue, "Electronic Devices in Intelligent IoT Applications", is to discover new scientific knowledge relevant to the following topics:

- Electrical circuits and devices in intelligent IoT applications;
- Microelectronics and computer technology in intelligent IoT applications;
- Electrical engineering communications in intelligent IoT applications;
- Microwave and electronic system engineering in intelligent IoT applications;
- Microelectronics and optoelectronics in intelligent IoT applications;
- Signal processing in intelligent IoT applications;
- System and control engineering in intelligent IoT applications;
- Computer science and engineering in intelligent IoT applications;
- Cognitive technologies and interaction design;
- Communication and information processing in intelligent IoT applications.

Guest Editors

Prof. Dr. Teen-Hang Meen

Department of Electronic Engineering, National Formosa University,
Yunlin 632, Taiwan

Prof. Dr. Charles Tijus

Laboratoire des Usages en Technologies d'Information Numériques,
Lutín, France

Deadline for manuscript submissions

closed (31 December 2021)

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
