

## Special Issue

# Applied AI in Emotion Recognition

### Message from the Guest Editors

The primary purpose of this Special Issue of *Electronics* is to present newly emerged research interests in specific emotions and novel A.I. approaches. In addition, it will present novel developments in intelligent computing methods and novel hardware systems to advance emotion recognition technology for the scientific community and industry. Topics include, but are not limited to, the following:

- Emotion recognition, conversion and synthesis;
- Identification of emotions related to learning and cognitive processes;
- Health-related emotional states studies, such as depression, ASD and fatigue;
- Analysis of novel emotional features to improve generality and robustness;
- Micro-expression recognition, vocal burst recognition, and deceptive speech detection;
- Personalized and contextual adaptation;
- Embedded systems for emotion recognition, including new methods and new protocols;
- Practical applications of emotion recognition technology, including call-center applications, health and medical applications, education and online-learning applications.

### Guest Editors

Dr. Chengwei Huang

Zhejiang Lab, Hangzhou 311121, China

Prof. Dr. Yongqiang Bao

School of Information and Communication Engineering, Nanjing Institute of Technology, Nanjing 211167, China

Prof. Dr. Li Zhao

School of Information Science and Engineering, Southeast University, Nanjing 210096, China

### Deadline for manuscript submissions

closed (15 October 2024)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
