

## Special Issue

# Mobile Oriented Future Internet (MOFI): Architectural Designs and Experimentations

### Message from the Guest Editor

This Special Issue focuses on new concepts or models, architectural design, implementation, experimentation for MOFI, together with analysis of the existing mobility management schemes. The topics of interest include, but are not limited to:

- Analysis of existing mobility protocols (e. g., PMIP, HIP, etc) from the Future Internet perspective
- Requirements and design considerations for Mobile Oriented Future Internet
- Architectural design and experimentation for Mobile Oriented Future Internet
- Recent R&D activities and testbed experimentations for Future Internet (e.g., EU FP7 project)
- Recent activities on International Standardizations for Future Internet in ITU, ISO, IETF, 3GPP, etc.
- Mobility management in the Internet-of-Things (IoT) environment
- New model or approach for Mobile Oriented Future Internet
- Use of new technologies (e. g., SDN, NDN, etc.) for Mobile Oriented Future Internet

Welcome to contribute!

---

### Guest Editor

Prof. Dr. Seok-Joo Koh

School of Computer Science and Engineering, Kyungpook National University, Daegu 702701, Korea

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
