

Special Issue

Grid-Connected and Isolated Renewable Energy Systems

Message from the Guest Editors

Authors are invited to submit full papers describing original research work in areas including, but not limited to:

- Grid-connected converters and microgrids;
- Offshore grid connected and isolated energy systems;
- Control and stability issues of grid-connected and isolated energy systems;
- Power quality of grid-connected and isolated energy systems;
- Fault ride through control of grid-connected systems;
- Grid codes and regulations for grid-connected and isolated energy systems;
- Industrial applications of grid-connected and isolated energy systems;
- Technical and economic evaluation of grid-connected and isolated energy systems.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Control and
Systems Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.4 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the second half of 2024).
