

Special Issue

Hardware Accelerated Algorithms and Architectures for Various DSP Applications

Message from the Guest Editor

The main purpose of this Special Issue is to attract submissions on the development of high-performance signal processing algorithms and optimized hardware architectures required for various signal processing applications. Optimization at all levels of abstraction falls within the field of interest of this Special Issue, e.g., at the algorithm, register-transfer, and circuit levels. The topics of interest include, but are not limited to:

- Models, methods, and architectures for accelerated computing
- Hardware architecture for digital signal processing algorithm
- Hardware design in edge/IoT computing
- Low power and high-performance design
- Hardware/software co-design
- High level synthesis
- Reconfigurable system design
- Interaction of CPU and FPGA components
- System on chip design
- High-speed algorithm and architecture
- Optimized design of digital communication systems
- Digital system design with reduced memory bandwidth

Guest Editor

Prof. Dr. Sang Yoon Park

Associate Professor, Department of Electronic Engineering, Myongji University, Yongin 17058, Korea

Deadline for manuscript submissions

closed (30 June 2023)

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q1 (Electrical and
Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.4 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the second half of 2024).
