

## Special Issue

# Human–Computer Interaction: Latest Advances and Future Trends

### Message from the Guest Editors

In recent years, human–computer interaction research has changed from a popular research direction to a basic research direction. The scope of HCI is becoming much broader, including devices such as mobile devices, VR/AR devices, and all kinds of robots, as well as diverse network and software environments (such as the Metaverse environment, which is very popular recently). This Special Issue aims at rallying researchers, academicians, scientists, and students to exchange their ideas, experiences, and latest research results on HCI and their applications. The topics of this Special Issue include but are not limited to the following:

- HCI research papers;
- Cutting-edge technologies and standards in HCI;
- Data science used in HCI;
- Cross-cultural studies;
- Design for disabilities;
- Prototypes and case studies;
- Latest applications;
- Human robot interaction;
- Personalized interaction design research;
- Adaptive interaction design research;
- Emotional interaction.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
