

Special Issue

Quantum Information, Computation and Cryptography

Message from the Guest Editors

The second quantum revolution was founded on fundamental research at the intersection of physics and information science, giving rise to the field we today refer to as quantum information science. This Special Issue will focus on quantum information science, especially quantum communication and quantum computing. It will aim to provide the up-to-date findings in theories and experiments of quantum information science for a broad range of readers. Topics are included, but are not limited to:

- Quantum algorithms
- Quantum computing
- Quantum error correcting codes
- Quantum communication
- Quantum Shannon theory
- Quantum complexity theory
- Quantum networks
- Quantum cryptography
- Quantum information processing
- Quantum metrology and sensing
- Quantum programming
- Quantum machine learning
- Blind quantum computing
- Tensor network states
- Quantum simulations
- Quantum foundations
- Quantum optics
- Geometric quantum computation

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
