

Special Issue

Advances in Intelligence Networking and Computing

Message from the Guest Editors

In this Special Issue, we invite submissions of high-quality original research and survey papers. Research and development topics for this Special Issue include but are not limited to:

- Machine learning, deep learning, reinforcement learning, and other learning techniques for SDN, NFV, edge computing, cloud computing, IoT, and 5G;
- Intelligent algorithms/protocols for network configuration and management, network resource allocation and scheduling, low-power and efficient networking;
- Machine learning and big data analytics for detecting network attacks and other security issues;
- Machine learning and intelligent analytics for information diffusion and other network issues;
- New optimization techniques/algorithms/hardware for intelligent networking and computing;
- New machine learning techniques/algorithms/hardware for intelligent networking and computing;
- Applications of emerging technologies;
- Intelligence networking and computing for emerging applications and services;
- Testbed and practical implementation of intelligence networking and computing.

Guest Editors

Prof. Dr. Jong-Deok Kim

Prof. Dr. Mikio Hasegawa

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
