

Special Issue

Recent Advances in Intelligent Vehicular Networks and Communications

Message from the Guest Editors

This Special Issue aims to provide a platform for sharing state-of-the-art research and development on intelligent vehicular networks and communications. Potential topics include, but are not limited to, the following:

- Vehicular system architecture design;
- Medium access control protocols in intelligent vehicular networks;
- Communication and network protocols in intelligent vehicular networks;
- Vehicle-to-vehicle/roadside/Internet communication;
- Artificial intelligence in intelligent vehicular networks;
- Mobility management and resource allocation in intelligent vehicular networks;
- Collaborative computing strategies for intelligent vehicular networks;
- Security, privacy, and trust issues of intelligent vehicular networks;
- Hardware and software design for intelligent vehicular networks;
- Implementation and testbed of intelligent vehicular networks;
- Blockchain-enabled vehicular networks;
- Intent-driven network and service management for smart vehicular communication terminals.

Guest Editors

Dr. Zhiyuan Ren

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
