

## Special Issue

# IoT Security and Privacy through the Blockchain

### Message from the Guest Editors

Blockchain, far beyond bitcoin, has produced an unprecedented revolution in the security and reliability of many Internet services and applications. This Special Issue expects innovative work to explore new frontiers and challenges in the field of IoT security and privacy under the umbrella of blockchain and distributed ledger technologies, including the mentioned crypto-sensors, distributed consensus mechanisms, encryption algorithms, fault tolerance mechanisms for IoT, etc. The particular topics of interest include, but are not limited to:

- Architectures and platforms for blockchain and IoT
- Distributed consensus mechanisms for the IoT
- Crypto-elements for the security in IoT
- Encryption algorithms for the IoT
- Fod/edge computing and sidechains for IoT security and privacy
- Blockchain for forensics in IoT
- Fault tolerance mechanisms for IoT
- Energy efficiency in IoT data hashing
- Redundancy for IoT data security and privacy
- Virtualization for IoT data security and privacy
- Standardization for IoT and blockchain convergence
- IoT malicious transactions detection
- Other blockchain applications for the IoT

### Guest Editors

Dr. Javier Prieto

BISITE Research Group, University of Salamanca, 37007 Salamanca, Spain

Dr. Fernando De la Prieta Pintado

BISITE Research Group, University of Salamanca, Edificio Multiusos I + D + I, 37007 Salamanca, Spain

### Deadline for manuscript submissions

closed (31 August 2021)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
