

Special Issue

MIMO for Next Generation Wireless Systems

Message from the Guest Editor

This Special Issue calls for recent advances related to massive MIMO technologies beyond 5G that cover signal processing, hardware and complexity optimization, traffic optimization management, distributed and centralized optimized processing architectures, security, and implementation aspects. Topics of interest in this Special Issue include, but are not limited to, the following: Transmitter and receiver techniques for mMIMO;

- Low energy/hardware complexity implementations (analog/digital mMIMO, 1 bit DAC/ADC, NL amplifiers, etc.);
- Channel estimation in mMIMO;
- mMIMO techniques for cell-free mMIMO systems;
- mMIMO for energy harvesting;
- mMIMO large intelligent surfaces, reconfigurable intelligent surfaces, intelligent reflexive surfaces, etc.;
- Radio stripes;
- Machine learning and efficient distributed processing architectures and optimized resource allocation schemes;
- Network and traffic optimization for ultra-dense mMIMO;
- Physical security in mMIMO;
- Proof-of-concept (PoC) and trials.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
