

## Special Issue

# Multimedia Content Analysis, Management and Retrieval: Trends and Challenges

### Message from the Guest Editors

In recent years we have witnessed the development of computing, communication, and storage technologies. Multimedia technology has gained enormous potential to improve processes in a wide range of areas such as advertising, education, entertainment, healthcare, surveillance, wearable computing, biometrics, and remote sensing. Huge quantities of multimedia data require new and innovative approaches to modelling, processing, mining, organizing, and indexing this data in order to effectively and efficiently search, retrieve, deliver, manage, and share multimedia content as required by applications in the aforementioned fields.

The main objective of this Special Issue is to bring together researchers and professionals from academia and industry around the world to discuss the wide spectrum of technological opportunities, challenges, solutions, and emerging applications for multimedia content analysis, management, and retrieval. We particularly encourage original work based on interdisciplinary research, such as computer science and social science.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
