

## Special Issue

# Nitride Semiconductors Revolution: Material, Devices and Applications

### Message from the Guest Editor

Welcome to the GaN revolution! It is not an exaggeration to define the spectacular developments in the field of nitride semiconductors of last years as a revolution. The purpose of this Special Issue is to cover some of the new research on nitride semiconductors, concerning the design of the devices and the development of new applications, along with advances in material processing. This Special Issue provides a chance to capture the latest advances, propose new exciting challenges, and disseminate innovative studies and breakthrough discoveries on nitride semiconductor devices. The final goal of this issue is to become an outstanding reference for the latest progress in nitride semiconductor devices and applications for all the researchers working in this field. Being conscious that the revolution is far from over!

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
