

Special Issue

Deep Learning Based Object Detection II

Message from the Guest Editor

This Special Issue will cover the most recent technical advances in all deep learning-based object recognition aspects, including theoretical issues on deep learning, real-world applications, practical object detection systems, and originally designed databases. Both transfer learning or semi-supervised learning of deep learning are welcome. Reviews and surveys of the state-of-the-art in deep learning-based object detection are also welcome. Topics of interest for this Special Issue include, but are not limited to, the following topics:

- Image/video-based object detection using deep learning
- Sensor fusion for object detection using deep learning
- Transfer learning for object detection
- Online learning for object detection
- Active learning for object detection
- Semi-supervised learning for object detection
- Deep learning-based object detection for real-world applications
- Object detection systems
- New database for object detection
- Survey for deep learning-based object detection

Guest Editor

Dr. Youngbae Hwang

Department of Electronics Engineering, College of Electrical and Computer Engineering (ECE), Chungbuk National University (CBNU), Cheongju-si, Korea

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
