

## Special Issue

# Open-Source Electronics Platforms: Development and Applications

### Message from the Guest Editor

Open-source electronics platforms are becoming popular in our daily activities. Arduino- and Raspberry-compatible modules have been applied for a wide range of applications from do-it-yourself to industrial projects. Using open-source electronics platforms as educational tools for teaching engineering and science at universities is undeniable. Influences of open-source electronics platforms in technological renovations and social impacts have been well recognized. This Special Issue aims to gather recent development and applications of open-source electronics platforms. We invite all papers with novel contributions in principles, development and applications of open-source electronics platforms with but not limited to the following topics:

- Current state of the art of open-source electronics platforms
- Principles and development of open-source electronics platforms
- Software frameworks and operating systems for open-source electronics platforms
- Using open-source electronics platforms to develop modern information systems including IoT, cyber-physical systems, sensor networks, automation, and robotics.
- Usability of open-source electronics platforms in research and education

### Guest Editor

Dr. Trung Dung Ngo

The More Than One Robotics Laboratory, University of Prince Edward Island, 550 University Ave, Charlottetown, PE C1A 4P3, Canada

### Deadline for manuscript submissions

closed (31 December 2018)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
