

Special Issue

Refurbishment, Remanufacturing and Retrofitting of Machinery in Cyber-Physical Production Systems

Message from the Guest Editors

The goal is to save valuable resources by re-using equipment instead of discarding it via supporting legacy industrial infrastructures with advanced technological solutions that have built-in capabilities for in-situ repair, self-assessment, and optimal re-use strategies. Topics of interest for this Special Issue include, but are not limited to:

- Big data analytics, predictive analytics, and optimization models;
- Machinery digital twins;
- Refurbishment and re-manufacturing of machinery;
- Edge, fog, and cloud computing;
- Health monitoring, failure inspection, and diagnosis of machinery;
- Advanced mechatronics devices;
- Automation and robotics;
- Case studies and testbeds on smart manufacturing;
- Cyber-physical systems;
- Developments in intelligent manufacturing systems;
- Industrial communication protocols;
- Modeling and simulation for smart manufacturing;
- Smart actuators and materials;
- Sustainable materials, products, and processes;
- IoT and IIoT;
- 5G in industry;
- Big data and machine learning;
- Industrial vision systems;
- Vision-guided robotics.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
