

Special Issue

Security and Privacy in Cyber Physical Systems

Message from the Guest Editors

This Special Issue solicits high-quality original research and survey papers with consolidated and thoroughly evaluated research on various aspects of security and privacy in CPS applications. This Special Issue will serve as a comprehensive collection of the current state-of-the-art technologies within the context. Topics of interest include but are not limited to the following:

- Data science-based solutions for CPS security and privacy issues;
- Blockchain-based security and privacy solutions for CPS applications;
- Smart contract-based trustable and verifiable computations for CPS applications;
- Adaptive attack mitigation for CPS;
- Authentication and access control for CPS;
- Availability, recovery, and auditing for CPS;
- Data security and privacy for CPS;
- Embedded systems security and privacy;
- Electric vehicle charging systems security and privacy;
- Intrusion detection for CPS;
- Legacy CPS system protection;
- Security and privacy in industrial control systems;
- Smart grid security and privacy;
- Threat modeling for CPS;
- Urban transportation system security and privacy;
- Vulnerability analysis for CPS;
- Wireless sensor network security and privacy.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Control and
Systems Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.4 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the second half of 2024).
