Advanced Security, Trust and Privacy Solutions for Wireless Networks

Message from the Guest Editors

The goal of this Special Issue is to provide a forum for worldwide researchers to share their innovative ideas and latest findings in the areas of security, trust, and privacy for wireless networks covering (but not limited to) the following topics:

- Lightweight encryption for wireless networks;
- Physical layer security for wireless networks, including key-based/keyless secure communication and covert communication;
- Physical layer authentication of mobile devices;
- Trust management in wireless networks;
- Privacy preservation in wireless networks;
- Access control in wireless networks;
- Application of distributed ledger technology and AI for security, trust, and privacy in wireless networks.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
