Trends in Educational Robotics

Message from the Guest Editors

The aim of this Special Issue is to gather worldwide preoccupations, learning methodologies, implemented projects, robotic technologies used in education, regular curricula, specific competitions, and programs in the field of Educational Robotics. We invite you to submit your accomplishments to this Special Issue on "Trends in Educational Robotics" on topics that include but are not limited to the following areas:

- STEM education;
- Educational robotics programs, platforms and resources;
- Supporting teacher education in robotics;
- Augmented reality in educational robotics;
- Educational haptics;
- Robots for learning;
- Future of educational robotics.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
