

## Special Issue

# VLSI Design, Testing, and Applications

### Message from the Guest Editor

The focus of this Special Issue is on the research challenges related to the design of emerging microelectronics and VLSI circuits and related systems that meet the demanding specifications of innovative applications. This Special Issue considers challenges in the fields of low power consumption, small integration areas, testing and security, without, however, being limited to them. Authors are encouraged to submit works related to emerging research topics and applications, such as hardware security, low-power IoT devices, high-performance processing cores, etc.

- device modeling
- emerging technologies
- CAD for VLSI design
- hardware/software co-design
- testing and verification
- FPGA-based design
- embedded systems
- IP cores
- low-power circuits and systems
- hardware security
- emerging applications
- VLSI for AI and ML algorithms

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
