

Topical Collection

Knowledge Management in Encyclopedia

Message from the Collection Editors

Knowledge management has evolved almost exponentially in the last decade, with new challenges for thinking of new paradigms with which to manage intangibles and create knowledge strategies for a desirable future. The complexity of knowledge management asks for new approaches in research and new interpretations based on neuroscience and knowledge dynamics. Knowledge management is not replacing classical management but enriching it with new theories and business models. Knowledge strategies are at the core of business strategies. Knowledge management is closely related to intellectual capital and makes possible its transformation from organizational potential to production force through specific thinking. This new Topic Collection constitutes an opportunity for researchers interested in knowledge management and intellectual capital to share their ideas and findings. Studies related to knowledge management in *Encyclopedia* are especially welcomed. **Keywords**

- knowledge management
- knowledge dynamics
- knowledge strategies
- intellectual capital
- knowledge creation
- knowledge sharing
- knowledge use

About the Journal

Message from the Editor-in-Chief

Many international journals have proliferated over the last 20 years regarding very specific themes of research. Thus, I am pleased to announce the new open-access MDPI journal *Encyclopedia* to provide a wide audience platform for the presentation of outcomes and methodological approaches of current interest for the scientific community. Social sciences, humanities, physical sciences, engineering, and life sciences are the principal macro-areas of relevance for the journal. On behalf of the Editorial Board, I welcome all to *Encyclopedia* and invite contributions of entry papers to our editorial project.

Editor-in-Chief

Prof. Dr. Raffaele Barretta

Department of Structures for Engineering and Architecture, University of Naples Federico II, 80125 Naples, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.9 days after submission; acceptance to publication is undertaken in 4.5 days (median values for papers published in this journal in the first half of 2025).
